

Rosales, Paul Aaron

Senior Graphic Artist & Front-End Developer

Senior Graphic Artist with 15+ years of experience creating brand identity, print, and digital marketing materials for enterprise and SME clients across the Philippines and Southeast Asia. Proven track record designing marketing assets, EDM campaigns, and social media creative for brands including San Miguel Corporation, PLDT, and Philippine Airlines, alongside layout design for print publications such as Traversing the Orient magazine. Skilled across the full creative toolkit (Adobe Photoshop, Illustrator, Premiere Pro, Figma, Canva) with hands-on front-end development experience (React, HTML/CSS) that allows designs to be built with production feasibility in mind from the start.

Creative & Front-End

C3 Interactive Manila - Philippines

MAY 2022 - MAR 2026

- Collaborated with design and marketing stakeholders such as PLDT, Philippine Airlines and SatLite, to translate brand requirements into functional web interfaces; this also includes EDM and other social media marketing assets.
- Designed & developed front-end features primarily using React ensuring responsive, cross-device performance mostly for San Miguel Corporation and their affiliated companies.
- Built & maintain a Drupal website from scratch, revise all previous functionalities such as:
 - Developed new modules and widgets to reduce redundancy in content creation — for example, a module that automatically categorizes related posts by taxonomy and generates a card-based widget displaying related content.
 - updated website themes to be fully responsive and cross-device ready.
 - automation of certain draft event(s) to be posted without human interaction.

Freelance Brand & Web Designer

Self-Employed - Philippines

SEP 2019 - MAY 2022

- Provided freelance brand design and web design services to clients during the COVID-19 pandemic period, maintaining continuous client work while the agency market contracted.

Senior Web / Graphic Designer

EMAPTA - Philippines (BPO - Australian Acct.)

MAR 2017 - SEP 2019

- Led design of marketing assets, including EDM campaigns and social media creative, for multiple client accounts.
- Created and maintained WordPress websites for Evac Services, Safe Home Services, and Evac Connect.

Senior Web / Graphic Designer

Cr8v Web Solutions - Philippines

JAN 2014 - OCT 2016

- Designed UI/UX and developed numerous websites for small and medium-sized business clients.
- Designed Social Media post for numerous small & medium-sized business clients.
- All developed websites are fully responsive, and fully capable for cross-device performance.
- Collaborated for Front-End development for Jollibee ordering system.

Main Layout Artist

Traversing the Orient - Thailand

MAR 2013 - OCT 2013

- Designed and created the main layout for the magazine Traversing the Orient for 3 published issues.
- Supervised all print outputs to ensure alignment with the expected layout design

Web / Graphic Designer

Floor Center Phils. Inc. - Philippines

JAN 2012 - MAR 2013

- Designed all marketing assets such as pamphlets, store posters, price tags, promotional posters, product designs and other custom print designs.
- Supervised all social media accounts such as Facebook, Twitter (now X), and Instagram; this also includes promotional posts and client interaction.
- Updated and maintained the Floor Center & Tile Depot marketing website. Integrated a tile ordering system that automatically routed customer inquiries to a sales representative for follow-up, without processing payment directly on the site.

Full Stack Web Developer

PDE SME Solutions, Inc - Philippines

JUN 2011 - DEC 2011

- Hired for contractual development of a full event registration website with a custom PHP/SQL CMS, integrated with PayPal payment processing.
- Owned the full stack for this project — front-end integration, back-end development, database and system architecture, and PayPal payment integration.

Full Stack Web Developer

Bell Telecommunications - Philippines

FEB 2009 - JUN 2011

- Created marketing materials for stakeholders.
- Designed, developed, and maintained a range of static websites using HTML, CSS & JavaScript
- Maintained web-app websites using PHP & SQL

EDUCATION

Bachelor of Science in Computer Science
